

August 31, 2026

To Whom It May Concern:

I am pleased to write this letter of recommendation for Andrew Sklyarov, who completed an internship with Trib Total Media, LLC as an IT Department Intern from May 19, 2026 through July 24, 2026. During this time, Andrew worked under my supervision within our Information Systems organization and supported multiple technology teams across the company.

Throughout his internship, Andrew gained hands-on experience in a variety of Information Technology disciplines, including technical support, reporting and data analysis, cybersecurity initiatives, documentation development, process improvement, and software development support. He assisted with IT troubleshooting, internal technology projects, SQL reporting efforts, workflow improvements, and the development of technical documentation and standard operating procedures.

Andrew contributed to several projects involving business reporting and data analysis, helping validate data, identify discrepancies, document findings, and support operational improvements. He also assisted with cybersecurity awareness initiatives and worked with both the Information Technology and Data Fusion teams on projects that provided exposure to real-world business systems and technology operations.

Based on my direct observations, Andrew demonstrated a strong willingness to learn, adapted quickly to new assignments, and consistently embraced opportunities to expand his knowledge and experience. He approached projects with professionalism, curiosity, and attention to detail, and worked effectively with employees across multiple departments.

Andrew was a valued member of our internship program, and we appreciated the contributions he made during his time with Trib Total Media. I am confident that he possesses the aptitude, work ethic, and enthusiasm necessary for continued success in both academic and professional settings. I recommend him without reservation and wish him every success in his future endeavors.

Please feel free to contact me if additional information is needed.

Sincerely,

Dave Fellabaum

Executive Director, Information Systems
